# Ottone<sup>®</sup> meloda

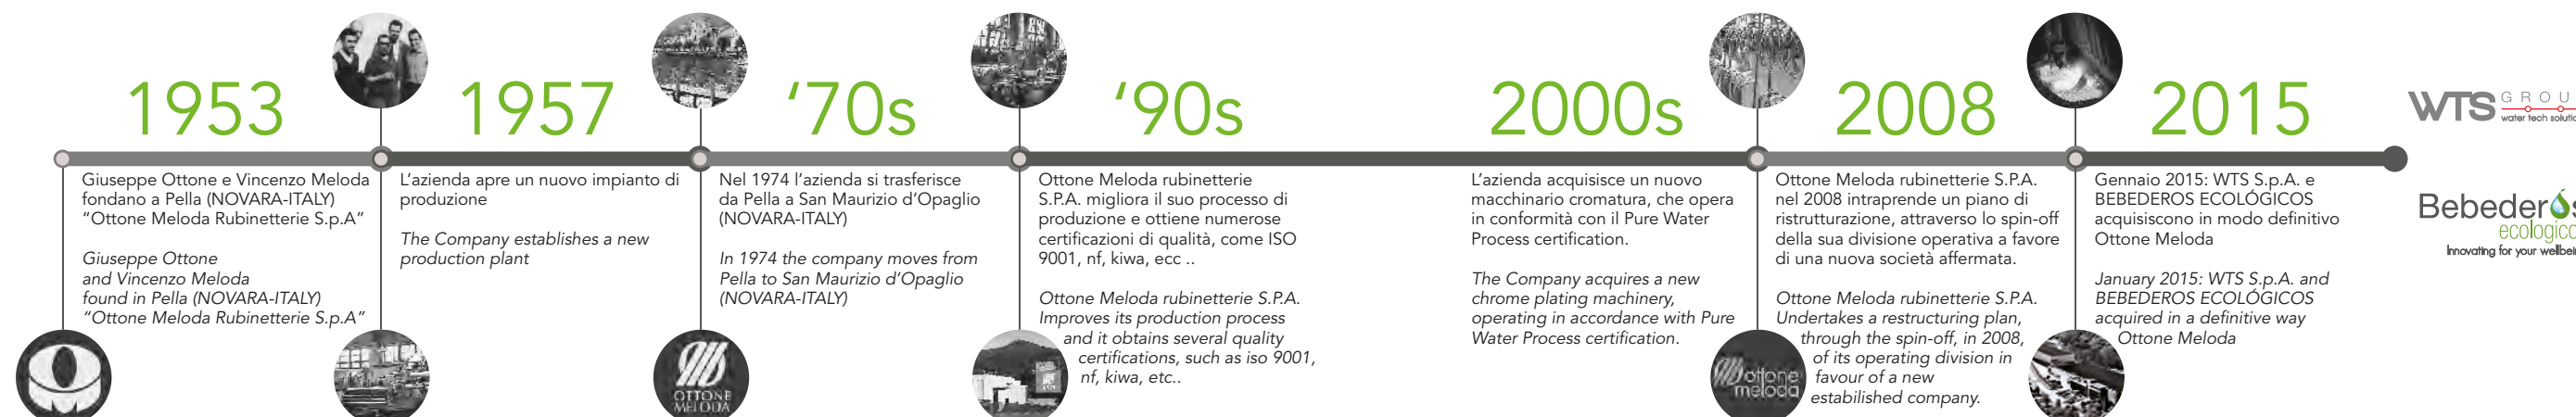

Italian production since 1952

Oltre 60 anni di presenza da protagonista nel mercato della produzione di rubinetti e miscelatori per acqua sanitaria.

Fondata nel 1952 a Pella (No), a pochi passi dal Lago d'Orta, poi trasferitasi nella vicina San Maurizio d'Opaglio; fra le prime industrie a dare vita al cosiddetto "distretto dei rubinetti", Ottone Meloda e la sua storia hanno per palcoscenico il mondo intero: partendo dal Medio Oriente, passando dal Sud Africa, interessando gli Stati Uniti, l'intera Europa e, ultimamente, affacciandosi ai nuovi mercati di Cina, India e Sud America. Nel 2015 l'acquisizione combinata di Ottone Meloda da parte di WTS group e Bebederos Ecológicos ha portato l'azienda verso nuovi obiettivi di consolidamento ed espansione verso i nuovi mercati emergenti. Un totale di oltre 50 Paesi, che hanno trovato in Ottone Meloda un segno distintivo per un Made in Italy all'insegna di eccellenza, innovazione e massima attenzione per l'ambiente.

*Ottone Meloda boasts over 60 years of activity as a market leader in the production of taps and mixers for bathroom and kitchen. Founded in 1952 in Pella, Novara province, near Lake Orta, and later moving to nearby San Maurizio D'Opaglio, it was one of the pioneering companies of the "Silicon Valley" of Italian tap-making. Ottone Meloda and its corporate history are players on the worldwide stage, exporting to the Middle East, Africa, North America, Asia and the whole of Europe, and now aiming at new markets like China, India and South America. In 2015, the combined acquisition of Ottone Meloda by WTS Group and Bebederos Ecologicos launched the company towards business consolidation and expansion to blooming new markets. A total of 50 countries to whom Ottone Meloda provided the quality, innovation and utmost environmental friendliness, the unmistakable landmark of Italian products.*

**85%**

#### Pure Water Process

Il nuovo processo **PWP** (Pure Water Process), ideato da Galvanofinish s.r.l., inibisce il rilascio nelle acque potabili di metalli tossici quali Piombo e Nichel, normalmente presenti negli articoli di rubinetteria.

L'innovativo processo **PWP**, è costituito da due trattamenti:

1. il primo garantisce l'eliminazione chimica del Piombo da rubinetti e valvole;
2. il secondo è rappresentato da un deposito di Nichel elettrolitico estremamente resistente alla corrosione, additivato con particolari prodotti che non permettono il rilascio di Ioni Nichel a contatto con l'acqua.

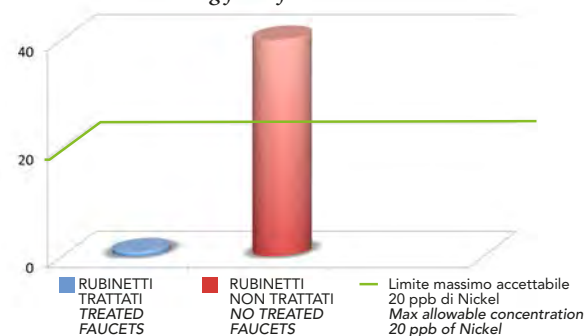

#### Pure Water Process

*The new process **PWP** (Pure Water Process), developed by Galvanofinish s.r.l., the leaching of toxics metals as Lead and Nickel in drinking water is prevented.*

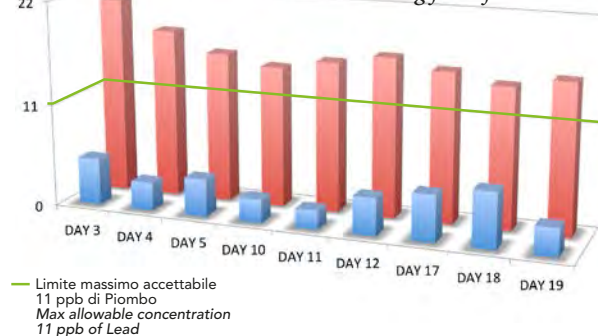

*The **PWP** treatment consists of two steps:*

1. *the first step guarantees the chemical removal of Lead from faucets, valves, joints made of brass;*
2. *the second step consists of the plating with an electrochemical Nickel very hard and corrosion-proof. It contains additives which avoid the leaching of Nickel ions when pieces come in contact with drinking water.*

Cessione Nickel da rubinetteria  
*Nickel leaching from faucets*

Cessione Piombo da rubinetteria  
*Lead leaching from faucets*

come previsto dalla norma NSF 61  
*as prescribed by NSF-61 regulation*

#### DISPOSITIVO PER IL RISPARMIO DELL'ACQUA Water Saving Device® System

Una grande esperienza nell'ambiente acqua ed una forte sensibilità ecologica, hanno dato vita al WSD® System, con un attacco universale utilizzabile su qualsiasi rubinetto. Con una semplice rotazione del dispositivo si sceglie un flusso d'acqua ridotto, per un risparmio idrico controllato e personalizzato. Installabile su tutti i rubinetti bagno e cucina, soffioni, saliscendi, mix vasca.

**Brevetto esclusivo di Ottone Meloda n°MI2010A001619**

*A large experience in the domain of water and a strong environment-friendly attitude gave birth to WSD® System, with a universal connection that can be fitted on any tap. By simply turning the device you can choose a reduced water flow in order to have a controlled and personalized water saving.*

*It can be installed on all bathroom and kitchen taps, showerhead, sliding rail, bath mixers.*

**An Ottone Meloda exclusive patent n°MI2010A001619**

**STOP**

#### DISPOSITIVO ANTICALCARE Anti-Scaling Device® System

Un generatore di campo magnetico permanente, di semplice installazione da fissare sopra ai tubi flessibili sottolavello, sottobidet. Con ASD® System gli ioni di calcio e magnesio che formano il fastidioso calcare, si disperdono evitandone la formazione.

**Brevetto esclusivo di Ottone Meloda n°MI2011U000028**

*Is a permanent magnetic field generator, easy to install on flexible water supply hoses beneath sink, washbasin and bidet taps. ASD® System disperses the calcium and magnesium ions responsible for troublesome limescale, preventing its formation.*

**An Ottone Meloda exclusive patent n°MI2011U000028**

**STOP**

#### DISPOSITIVO ANTI-BATTERICO Anti-Bacterial Device System

- by Galvanofinish srl

Le note proprietà anti-microbiche dell'argento, trovano applicazione, in esclusiva sui rubinetti Ottone Meloda, grazie al diffusore di ioni ABD, una lega a base di argento ed altri metalli che insieme potenziano l'attività anti-batterica. ABD impedisce la nascita e crescita di nuovi batteri all'interno del rubinetto.

*The well known antimicrobial properties of silver are exclusively applied on Ottone Meloda taps thanks to the ion diffuser ABD, an alloy containing silver and other metals that strengthen the antibacterial activity.*

*ABD prevents the formation and growth of new bacteria inside the taps.*

#### BILANCIATORE DI PRESSIONE Pressure Balance® System

È un dispositivo che, mantenendo perfettamente bilanciate le pressioni in uscita sia dell'acqua fredda che della calda impedisce scottature o il raffreddamento improvviso dell'acqua. L'esempio più frequente è nell'ambiente domestico dove con l'apertura di un'altro rubinetto si raffredda o si scotta l'utilizzatore della doccia; nell'ambito professionale troviamo lo stesso problema dai parrucchieri che utilizzano contemporaneamente diversi rubinetti e in tutti quegli ambienti con più utenze come ad esempio le docce delle palestre.

**Brevetto esclusivo di Ottone Meloda n°MI2010A 001417**

*This device prevents scalding or the sudden cooling of water, while keeping perfectly balanced the outgoing cold and hot water pressures. The most frequent case is in our houses where, by opening another tap, the person who is taking a shower can be scalded or get cold water; among professionals we find the same problem with hairdressers who use different taps at the same time and in all those places with more than one water outlet, like gym showers for instance.*

**DISPOSITIVO PER IL  
RISPARMIO DELL'ACQUA**

**Water Saving Device® System**

Una grande esperienza nell'ambiente acqua ed una forte sensibilità ecologica, hanno dato vita al **WSD®** System, con un attacco universale utilizzabile su qualsiasi rubinetto.

Con una semplice rotazione del dispositivo si sceglie un flusso d'acqua ridotto, per un risparmio idrico controllato e personalizzato. Installabile su tutti i rubinetti bagno e cucina, soffioni, saliscendi, mix vasca.

**Brevetto esclusivo di  
Ottone Meloda**  
n°MI2010A 001619

**A DEVICE TO CONTROL  
THE WATER FLOW**

**Water Saving Device® System**

A large experience in the domain of water and a strong environment-friendly attitude gave birth to **WSD®** System, with a universal connection that can be fitted on any tap. By simply turning the device you can choose a reduced water flow in order to have a controlled and personalized water saving. It can be installed on all bathroom and kitchen taps, showerhead, sliding rail, bath mixers.

**DISPOSITIVO  
ANTICALCARE**

**Antiscaling Device® System**

È un generatore di campo magnetico permanente, di semplice installazione da fissare sopra ai tubi flessibili sottolavello, sottobidet. Con **ASD®** System gli ioni di calcio e magnesio che formano il fastidioso calcare, si disperdono evitandone la formazione.

**Brevetto esclusivo di  
Ottone Meloda**  
n°MI2011U000028

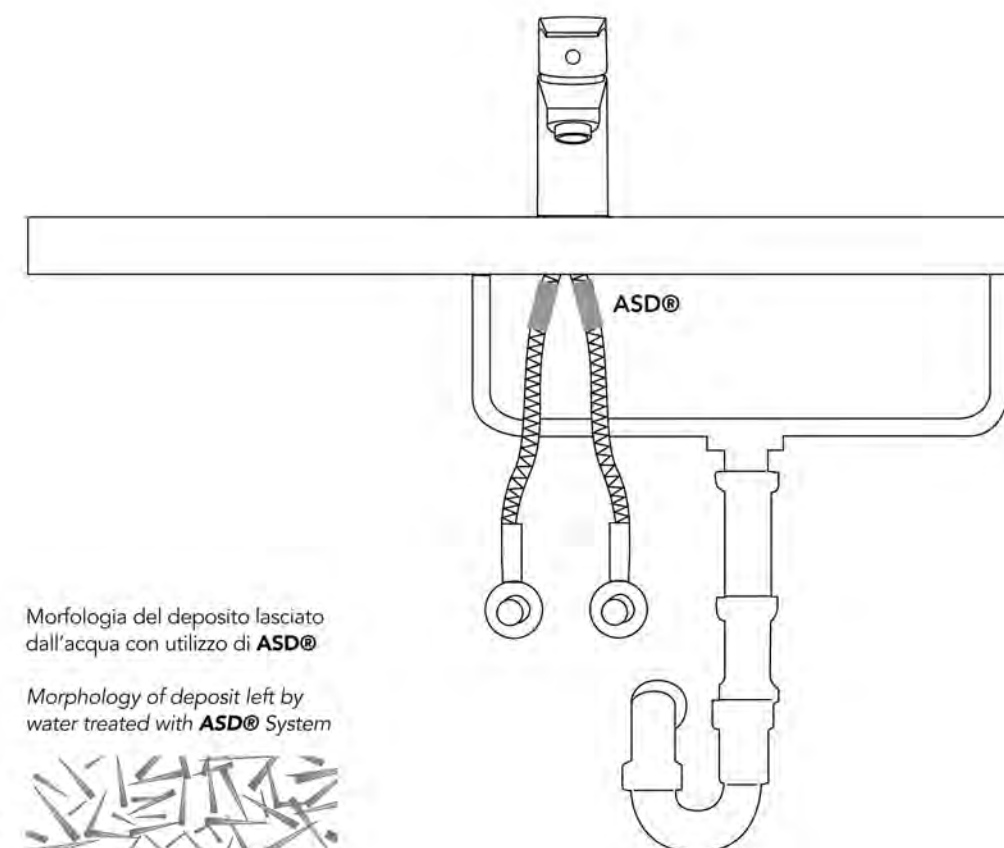

**ANTISCALING DEVICE**

**Antiscaling Device® System**

is a permanent magnetic field generator, easy to install on flexible water supply hoses beneath sink, washbasin and bidet taps.

**ASD®** System disperses the calcium and magnesium ions responsible for troublesome limescale, preventing its formation.

**An Ottone Meloda  
exclusive patent**  
n°MI2011U000028

### DISPOSITIVO ANTIBATTERICO

#### Antibacterial Device System

- by Galvanofinish srl

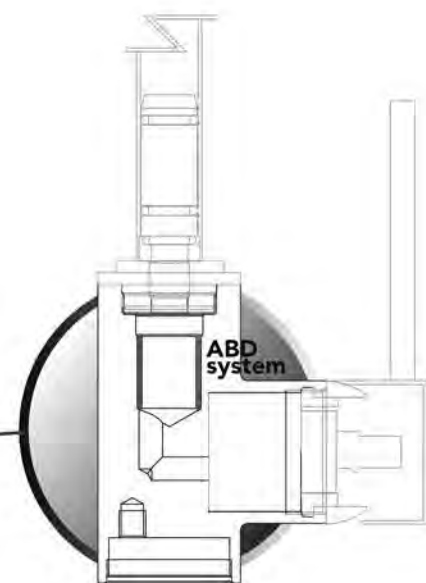

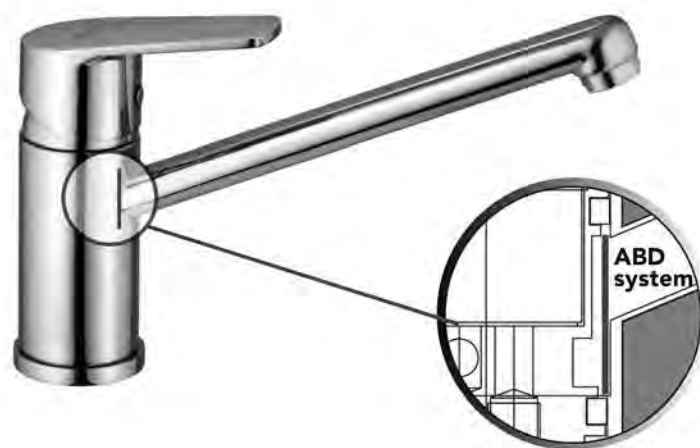

Le note proprietà antimicrobiche dell'argento, trovano applicazione, in esclusiva sui rubinetti Ottone Meloda, grazie al diffusore di ioni **ABD**, una lega a base di argento ed altri metalli che insieme potenziano l'attività antibatterica.

**ABD** impedisce la nascita e crescita di nuovi batteri all'interno del rubinetto

### ANTIBACTERIAL DEVICE SYSTEM

- by Galvanofinish srl

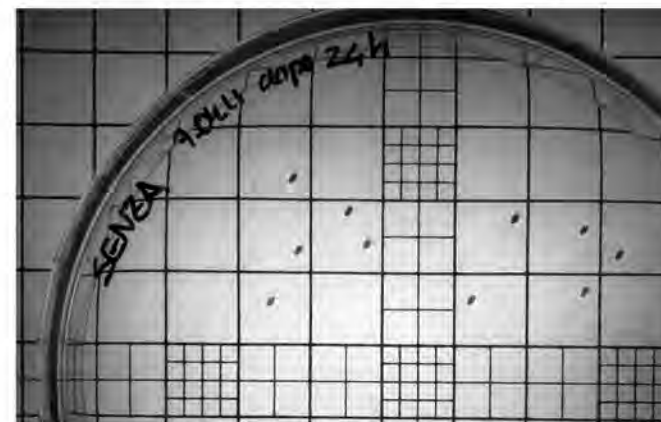

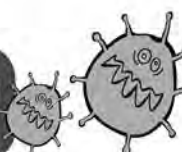

The well known antimicrobial properties of silver are exclusively applied on Ottone Meloda taps thanks to the ion diffuser **ABD**, an alloy containing silver and other metals that strengthen the antibacterial activity. **ABD** prevents the formation and growth of new bacteria inside the taps.

# il primo rubinetto antibatterico

#### BILANCIATORE DI PRESSIONE

##### PBS® System

È un dispositivo che, mantenendo perfettamente bilanciate le pressioni in uscita sia dell'acqua fredda che della calda impedisce scottature o il raffreddamento improvviso dell'acqua. L'esempio più frequente è nell'ambiente domestico dove con l'apertura di un altro rubinetto si raffredda o si scotta l'utilizzatore della doccia; nell'ambito professionale troviamo lo stesso problema dai parrucchieri che utilizzano contemporaneamente diversi rubinetti ed in tutti quegli ambienti con più utenze come ad esempio le docce delle palestre.

Brevetto esclusivo di  
Ottone Meloda  
n°MI2010A 001417

#### PRESSURE BALANCE

##### System PBS®

This device prevents scalding or the sudden cooling of water, while keeping perfectly balanced the outgoing cold and hot water pressures. The most frequent case is in our houses where, by opening another tap, the person who is taking a shower can be scalded or get cold water; among professionals we find the same problem with hairdressers who use different taps at the same time and in all those places with more than one water outlet, like gym showers for instance.

An Ottone Meloda  
exclusive patent  
n°MI2010A 001417

## a cosa serve

What is it good for?

**NO SBALZI DI  
TEMPERATURA**

APRENDO PIU' RUBINETTI

**NO MORE TEMPERATURE  
SUDDEN CHANGES**  
while opening more than one tap

1,5 bar 1,5 bar

3 bar 1,5 bar

Esempio di acqua calda in entrata nella doccia con pressione sbilanciata, perchè aperta da altri 2 rubinetti.

Con **PBS®** installato la temperatura nella doccia oscilla dai 38° ai 42°

Prova eseguita senza **PBS®** installato la temperatura nella doccia oscilla dai 28° ai 58°

Here is an example of ingoing hot water in a shower with unbalanced pressure, as two other taps have been opened.

When **PBS®** is installed, the water temperature in the shower varies from 38° to 42°

Test made without installing **PBS®**: the water temperature in the shower varies from 28° to 58°

## dove serve

Where is it useful?

#### CASA - HOME

**NO SBALZI DI TEMPERATURA  
MENTRE FAI LA DOCCIA**

**NO MORE TEMPERATURE SUDDEN CHANGES  
WHEN YOU ARE TAKING A SHOWER**

#### PARRUCCHIERI - HAIRDRESSERS

**NO SBALZI DI TEMPERATURA  
UTILIZZANDO PIU' RUBINETTI**

**NO MORE TEMPERATURE SUDDEN CHANGES  
WHILE OPENING MORE THAN ONE TAP**

#### PALESTRE - GYMS

**NO SBALZI DI TEMPERATURA  
MENTRE FAI LA DOCCIA**

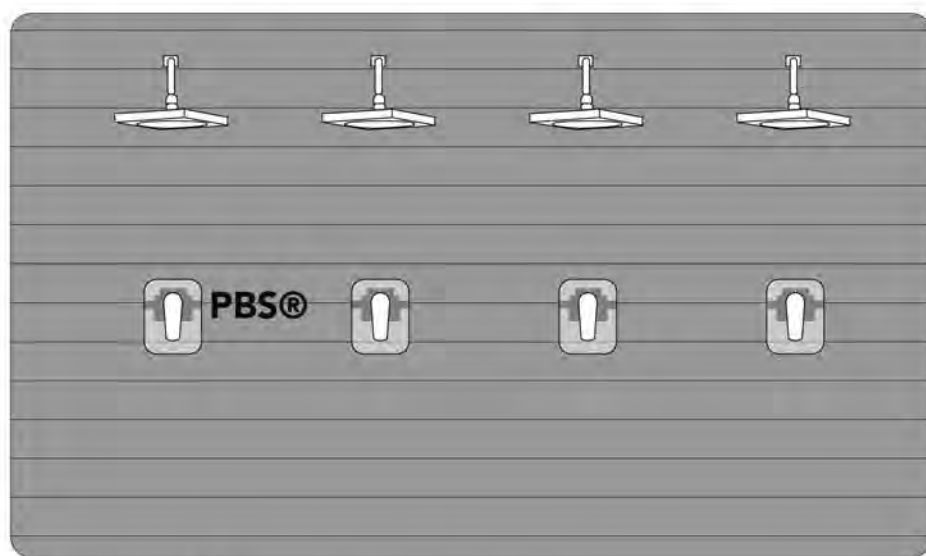

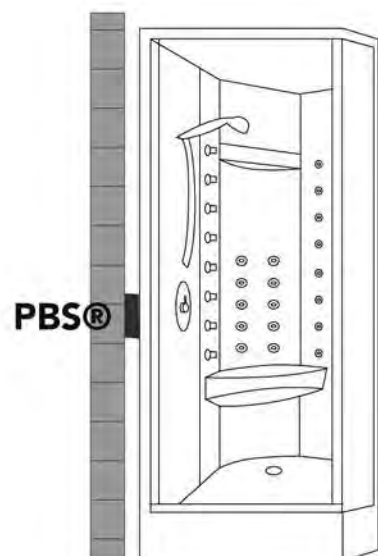

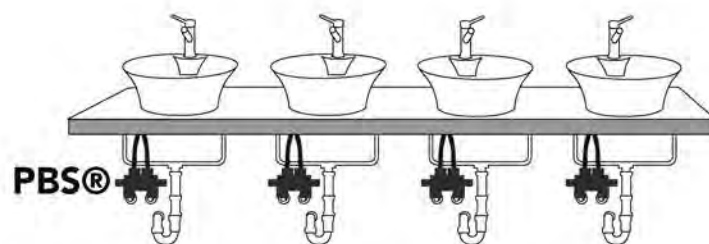

**NO MORE TEMPERATURE SUDDEN CHANGES  
WHEN YOU ARE TAKING A SHOWER**

## dove si installa

Where to install it?

**uso domestico**  
docce e box doccia  
**uso professionale**  
lavabi e docce multiutenza

**domestic use**  
showers and shower cubicles  
**professional use**  
wash basins and showers with  
multiple users

## installazione

Installation

**INSTALLAZIONE  
di PBS®**  
incassato a muro per i  
nuovi impianti oppure con  
tasselli a parete per gli  
impianti esistenti

**PBS® INSTALLATION**  
Wall mounted in case of  
new plumbing or fixed to  
the wall for existing ones

## vantaggi

Benefits

- ▶ **INSTALLABILE ANCHE IN IMPIANTI GIÀ ESISTENTI**  
*It can be installed on existing plumbing*
- ▶ **ACQUA CALDA E FREDDA PERFETTAMENTE BILANCIATE**  
*Perfectly balanced hot and cold water*
- ▶ **NEGLI IMPIANTI CON TERMOSTATICO L'EQUILIBRATORE NE MIGLIORA IL FUNZIONAMENTO**  
*PBS® improves the working of plumbings where thermostatic mixers are installed*
- ▶ **ALTERNATIVA AL TERMOSTATICO: FUNZIONA MEGLIO E COSTA MENO**  
*An alternative to thermostatic mixers: it works better and it's cheaper*

## CONDIZIONI GENERALI DI VENDITA

### ORDINI

Tutti gli ordini si intendono soggetti a conferma da parte nostra e non ci impegnano quindi alla consegna del materiale ordinato. La conferma dell'ordine comporta per il cliente l'accettazione automatica delle condizioni di vendita illustrate nei punti che seguono.

Ordine minimo: Euro 300,00.

### PREZZI

I prezzi del presente listino sono indicati in Euro, si intendono franco fabbrica al netto di IVA e in genere sono non impegnativi; saranno in ogni caso validi quelli stabiliti di volta in volta nelle conferme d'ordine, comunque emesse.

### SPEDIZIONI

I nostri prodotti viaggiano a rischio e pericolo del cliente, anche se spediti franco destino. La nostra società non risponde di eventuali ritardi, avarie o ammanchi verificatisi durante il viaggio. Immediatamente dopo il ricevimento dei beni il cliente dovrà notificare eventuali reclami direttamente alle compagnie di trasporto.

### RECLAMI

Eventuali difetti di costruzione e di qualità dei prodotti dovranno esserci notificati dal cliente, entro e non oltre 8 giorni dal loro ricevimento.

### CONDIZIONI DI PAGAMENTO

Devono essere rispettate tutte le condizioni fissate nelle conferme d'ordine comunque emesse. Trascorsi i termini stabiliti per il pagamento, sulle somme scoperte decorrerà l'interesse commerciale contestualmente vigente presso gli istituti di credito. Il ritardo dei pagamenti ci autorizza senza alcun preavviso alla sospensione dell'esecuzione di ordini già confermati. Il cliente diverrà proprietario dei nostri prodotti al totale pagamento della relativa fattura. Foro competente per eventuali controversie è il Tribunale di Novara.

### MODELLI E FINITURE

I colori delle finiture illustrate nei nostri cataloghi e depliants sono puramente indicativi. Ci riserviamo il diritto di apportare ai prodotti, in qualsiasi momento e senza preavviso, eventuali modifiche tecniche.

## GENERAL SALE TERMS

### ORDERS

All the orders are to be confirmed by us, otherwise we do not undertake to deliver the ordered material. The order confirmation determines for the customer the automatic acceptance of the sale terms described in the following steps. Minimum order value Euro 300,00.

### PRICES

The prices of this price list are in Euro, they are ex works and V.A.T. free and usually they are not binding; the valid prices are those established in the issued order confirmations.

### FORWARDING

Our products are sent at customer's risk even when they are free delivery. Our firm is not responsible for any delay, damage or lack taking place during forwarding.

Any complaint has to be made directly to the forwarding agencies immediately after the receipt of goods.

### COMPLAINTS

Any manufacturing and quality defect of the products have to be notified by the customer within, not later than 8 days since the goods receipt.

### PAYMENT TERMS

All the terms established in the issued order confirmations have to be observed. Once the fixed payment terms are expired, the uncovered sums will be subjected to the trade interest in force in the banks. The payment delay entitles us to stop the execution of the confirmed orders without any notice. The customer becomes owner of our products at total payment of the relative invoice. The competent Court in case of dispute is the Court in Novara.

### MODELS AND FINISHINGS

The colours of the finishings illustrated in our catalogues and brochures are only approximate. We have the right of technical modifying our products at any time and without notice.

## USO E MANUTENZIONE

Tutti i nostri rubinetti sono collaudati ad una pressione molto superiore a quella del normale utilizzo, 16 bar. Per ottenere la massima durata e maneggevolezza si consiglia l'utilizzo alle seguenti pressioni:

- Pressione massima di esercizio: 5 bar
- Pressione di esercizio consigliata: 3 bar

Nell'eventualità che la pressione di alimentazione sia superiore a 5 bar, si consiglia di inserire nell'impianto un riduttore di pressione. Ciò eviterà inoltre che si crei una eccessiva differenza di pressione tra l'acqua calda e l'acqua fredda.

Si consigliano inoltre le seguenti temperature:

- Temperatura massima acqua calda: 80° C (176° F)
- Temperatura consigliata acqua calda: 50° C (122° F)

Questo consente un risparmio energetico oltre ad una migliore miscelazione tra acqua calda e fredda. Si consiglia di pulire i rubinetti semplicemente utilizzando un panno o una spugna morbida con acqua e detergente neutro. Non utilizzare in nessun caso alcool, solventi, detersivi contenenti abrasivi o acidi, panni o spugne contenenti materiali aggressivi che potrebbero provocare rigature sulla superficie.

## USE CONDITIONS AND MAINTENANCE

All our taps are tested at a higher pressure, 16 bar, compared to the normal use. In order to obtain a long life and the best working conditions, we advise to use the taps with the following pressures:

- Maximum working pressure: 5 bar
- Advised working pressure: 3 bar

In case the supply pressure is higher than 5 bar, we advise to place a pressure reducer on the water main. This will also avoid to have a large pressure difference between hot and cold water.

We advise the following temperatures:

- Hot water maximum temperature: 80° C (176° F)
- Advised hot water temperature: 50° C (122° F)

This will allow an energy saving and better mixing conditions between hot and cold water.

We advise to clean the taps simply by using a soft cloth with water or a neutral detergent. Do never use in any case alcohol, solvents, cleansing agents containing abrasives or acids, cloths or sponges containing aggressive materials which could cause scratches on the surface.
