LIFE SERVICE BATHROOM

Professional experiences
bring an outstanding character,
Unwearing pursuit of life set
up a successful example.

Zhiru Building Ceramics Co., Ltd.
Chaoan Chaozhou, is one of the largest
manufacturers of sanitary wares in Chao'an,
Guangdong. It is a joint venture starting
with information, technology, research,
development, sales and services.

This company noted for environmental
protection, technology and services, starts
with German technology, creative designs,
wonderful shapes, and excellent quality.
The products are exported to the Middle
East, the Maldives, USA, Canada, Australia,
European union, South East Asia, Africa,
H.K., Macao and Taiwan; Sales network
covers all big cities in Mainland China.

Since its establishment in 1994, the
products have passed the inspections of
the authorities of provincial organization for
the last several years. The company has
gained credit from customers for the
excellent quality and services.

In 2001, the company passed through
ISO9001:2000 and got its qualification,
running under the customer-centered
management principle.

Five standards & International level

ENJOY LIFE STARTING WITH THE BATHROOM

The COCO sanitary ware toilet is heated by high temperature after the porcelain clay molding, and then blended with the glaze to make it have a hard and smooth surface and wear resistance. The raw material glaze is strictly controlled and scientifically formulated to make the product environmentally friendly and antibacterial, ensuring safe and hygienic use. The glaze is bright and delicate, easy to clean and lasting as new.

When the bathroom and life are closer, after the perfect combination of functionality and comfort, then the self and personality, return to nature. Ceramics best reflect the material of humanism and the quality of life of homeowners.

FOCUS ON LIFE,
STARTING WITH THE BATHROOM

Clean and simple white tone, simple and elegant, highlighting the owner's delicate and peaceful life.

COCO SANITARY WARE
ART BASIN SERIES

The COCO art pots are made of carefully selected ceramics, with precise design and strict craftsmanship. The style seems simple and simple, but the classic looks good. The special production process makes the whole style calm and calm.

Tips

It must be beautiful and practical. The choice of hanging basins is more cautious than the counter basins. Whether the style and the environmental space structure fit, the storage space, etc. are all details that need to be considered.
